

# FLAME ARRESTER

## FST105

- protective system** in-line deflagration flame arrester
- certificate** EC prototype test certificate according directive 94/9/EG (ATEX95) and ISO 16852
- application** gas/air- or vapour/air mixtures of explosion group  
IIA1 (Methan) MESG  $\geq 1,14$  mm  
IIA (D) MESG  $> 0,90$  mm
- nominal diameter** 80/3", 100/4", 125/5", 150/6"
- connection** ISO 7005 PN10  
ANSI B16.5 – 150
- material** metal foil element: stainless steel  
housing: carbon steel, stainless steel
- coating** galvanised or painted (optional)
- option** temperature sensor  
pressure tapping point
